Ken Handly abuses women; and everyone else in his life.

He abuses not physically, but mentally and emotionally. He has had whole string of illicit love affairs fueled by his own self-importance. Besides, his lovers, he abuses everyone he works with. His intelligent, attractive wife is sick of the embarrassment of Ken's behavior. The only person not sick of Ken is Ken; he loves himself. When Ken consults an astrologer to ask why his life isn't working out he way he planned it, he is warned that his behavior could lead others to react violently toward him. Ignoring the astrologer like he ignored most other people, he never saw what hit him.
