The Halcyon was on a run through the deep black, doing a routine patrol out toward the galaxy's rim, when it intercepted a distress call. An unidentified voice driven mad with fear, begging for help before it was abruptly silenced. The ship's comm officers have received no response, and the captain has set a new course for the prison colony on Titan where the message originated from. Victor's Valkyries, some of the hardest hands in the legion, gear up to go dirt side. For heavy weapons specialist Mercy "Machine Gun" Kelly, this will be her first mission back on active duty. With more than her pride still healing from her wounds, will she be able to face... The Terror From Titan!
