Caspia Chastain finally has what she's always wanted. She's in a supportive relationship with a one-of-a kind guy. (Really. He's the only one of his kind. Ever.) Her brother is so healthy it's mildly terrifying. She hasn't drawn the future in ages, her school schedule is creepy professor free, and her job as Whitfield's only Coffee Goddess remains secure. But someone is kidnapping Nephilim descendents and using them to build an army. An unpredictable new gift threatens to consume her. With it comes a persistent dream: a strange young man with gifted blood who may hold the key to her ancestry. Whitfield has enough buried secrets to protect its residents, though, even if that protection comes with a price.

Ethan has secrets, too. He's never spoken of his long life before meeting Caspia. When his past catches up with him, it could tear their relationship and the Realms apart.

Soon, Caspia and Ethan must discover if the light and life they've built together can withstand the gathering darkness.
