Game designer Bernard Walker finds his world taken hostage when police fail to solve a grisly murder. Desperate for the return of his new million-dollar oceanfront view, he deploys his San Francisco startup's game-design technology—backed by jalapeño-infused hot dogs from a local minimart—to hunt down a highly! elusive murderer. Flying the Coop: The Video Game Mystery Novel pits video game designers against inept police officers, overpaid city officials, and irritating venture capitalists in a hilarious battle of wit, cunning, and vastly different tastes in hot dogs and tofu. The book, by John Sailors, is the first in the gamer mystery series. Book 2, Clouded Ambitions, is coming this summer ... Flying the Coop is available in paperback and on Kindle.
