In her life there is one rule: survive. Kidnapped and forced into an underground fighting ring, Vanessa Burns knows each day could be her last. A win and she wakes up tomorrow. A loss and they toss her out with those she's defeated. Escape is futile; she'd tried and failed. Multiple times. And as she's forced to live in her shifted form, she's utterly powerful. So, her life has been dwindled down to one option. And she carries it out to the fullest of her abilities. Then, another shifter is brought in.

Travis Kameron, an Alpha, proves to be a formidable enemy. She knows the day is coming — when she and the Alpha are pitted against each other. And she knows she won't win. The deadly encounter results in a bloody promise, and Vanessa must choose what is more important to her: fulfilling her vendetta against her greatest enemy, or obtaining the one thing she wants most in her life.
