The day Jackson Kern walks into Taylor Andrews's classroom is a momentous day in Taylor's life. He's had crushes before, sure, but as time goes on, this is starting to look a whole lot more serious. Still, Jackson doesn't return Taylor's feelings. Taylor has his own admirers, though. Kevin Richards is used to getting what he wants, and what he wants right now is Taylor, so when Taylor rejects him, Kevin retaliates. At first Taylor's entourage rallies around him, but then Kevin takes his deception one step further and Taylor sees his support dwindle, teaching him the valuable on about who he can truly consider a friend.
