Life Goes On is a sequel to A Start in Life (1970). In the earlier book Michael Cullen left working-class Nottingham for the metropolis, fell into the proverbial bad company, and ended up as a convicted gold-smuggler. Now, having been abandoned by his wife after ten years of idleness in the Cambridgeshire village of Upper Mayhem, he needs very little persuasion to get back on the road. 'If I'm not on the move, I'm not living,' he thinks. Soon this first-person narrator endowed with Sillitoe's fine storytelling talents is not merely on the road but on the run.
