Old school bondage meets with high Tech fetish, in this, the eighth volume in the Brethren series. With a respectful nod to House of Gord and maybe just a touch of Insex, Fb presents a feast of flesh and fetish, purely for your titillation.

Practising submissive and hoarder of all things kinky she knows exactly what buttons to push! Brethren, book eight The world has moved on. The stuff of fantasy has become reality but most important of all, there is now absolute truth. Advances in technology mean citizens are no longer able to lie to the law givers. Those dispensing justice can do so without fear of punishing the innocent. Society is no longer prepared to keep or tolerate those who choose to do harm.

And so the Brethren have arisen. They offer the world another way, a natural justice. They keep the criminals contained and restrained whilst indulging their fetishes and desires. Criminals are presented to the Brethren to live out their days owned and degraded. Within the city's and county's given over to the elite of the Brethren, normality is subjective. Segregated from the rest of society they indulge without prejudice or interference.
