Kids will love this enchanting book that plays music and even doubles as a Christmas tree! This unique search-and-find Christmas book is even easier to put up than a real Christmas tree! Press the button to hear the Jingle Bells melody and turn it off whenever you want--replaceable batteries are included. The story takes place at Santa's house in the North Pole, where children will search to find lots of different things in each festive spread. Look for decorations on the tree, different types of cookies baking in Mrs. Claus's kitchen, robots and dollies to find in the workshop, and more. When you're done reading, use the Velcro tabs to join the covers together and make the tree stand upright. Makes a charming Christmas decoration.
