Gracie Ann is a child of extraordinary talents, including the ones she does not know she has. It takes a journey through time and space to help unlock those hidden abilities; and only her companion, Professor Abrim Adamson, can help her. Enjoy as the two unlikely beings from different worlds fight armies, magicians, and demons to not only save the ones she loves, but the planet she knows. Bara is a planet where magic rules, dragons soar through the air, and where the forces of good and evil are fighting an all out war for the souls of men. The hopes of all lay with an eight year old girl and an ancient man; both bed by God, and both in need of each other.
