A naughty 3 story set of sexy teachers - and their lusty, irresistible students! Lissa I was about to graduate and leave for college, but I wasn't ready! I was still too innocent, too inexperienced. But when the hunky Mr. Cole scolds me for trying to cheat on a test, I get a very naughty idea in my head... a way to get myself out of trouble, and to get some real-world womanly experience at the same time... Kayla All I wanted was for Professor Overton to notice me. Maybe I did push the dress code too far, but a girl's got to take drastic measures to catch a man's eye sometimes. Well, I caught it all right. And now he wants to see more... Ellie Professor Robert Keaton.

The silver fox of my dreams.

He's my professor, our attraction is off-limits, our desires so wrong.

But I know - I just know - I can give him what he needs... Also included! One bonus story about a young clerk, a billionaire CEO, and the wardrobe malfunction that brings them together! Dani The most powerful man in the whole company, and I just went ahead and flashed him! I had no idea what he must have thought of

me in that moment - but when he cornered me later, alone amidst the shelves, he sure did let me know...
