"Excuse me, while I pop this girl's cherry." Danni's boyfriend, Craig, has been so patient waiting for her to be ready to give herself to him for the first time. But it's clear he's getting frustrated.

He just doesn't understand what it's like to come from a long line of very fertile women and she can't risk falling pregnant just yet. But when Craig manages to get front row tickets to Danni's favorite band, Satan's Ramrod, she agrees to let him have her afterwards. But what she doesn't know is that the sexy lead singer, Jackson Slater, likes to pick girls from the audience to enjoy during the show. Jackson Slater is everything Craig isn't. Strong, raw, and pulsing with the kind of sexual energy that makes Danni's toes curl. This rockstar is going to show Danni how a real man takes his pleasure. She can't resist giving him her innocent untouched body even though her boyfriend is watching.
