Take the sting out of boo-boos with this ingenious board book that cleverly closes with a bandage and teaches kids about everything from scabs to broken bones. There's something fun on every spread! Ouch! Kids know what happens when they break a toy, but what about a broken bone? Or a scraped knee? They'll have a wild time finding out the answers with this novelty-packed peek at every kind of boo-boo, with a delightful text written in rhyme. There's amazing stuff to touch, feel, and do -- a whole medicine bag full of fun. Sign a cast and then lift the flap to see what a broken bone really looks like. Lace up ribbon stitches, and learn how they help an injury heal.

For the ultimate "yuck" factor, run your fingers over sandpaper scratches and scabs. Learning about bruises and bumps has never been so entertaining.
