Azari Templeton has always been a special child. His childhood friends are three otherworldly creatures that live in his closet. He's visited frequently by a childhood boogeyman, and has a special power so dark, no one would categorize it as super. Dr. Jimmie Stone is looking for teenagers as special as Azari. He believes that they can save the world. The problem is that the powers of good and evil are both strong pulls, and some boogeymen are all too real. Experience a supernatural blending a unique look at the Bible Belt, a new take on homespun horror, and an adventure tale like no other. In this exciting companion novel to Peculiar, INC, it becomes very clear that not all supers are heroes. And not all children are bed equally...or at all.
